

No. PID-99/22/2021-PPB-DBT-Part(2)

Dated: 17.06.2022

**OFFICE MEMORANDUM**

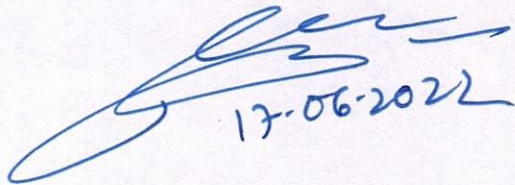

**Subject: Biological Research Regulatory Approval Portal (BioRRAP)**

1. With rapid growth in research, innovation, and policy interest in recent years, importance of responsible research and innovation has become paramount. In the past few years, several reforms have taken place in India to facilitate biological research, its promotion, and adoption without compromising safety and security concerns. These reforms include implementation of user-friendly online transactions mechanisms of regulatory processes.
2. To streamline and strengthen the biological research and innovation in the country, the **Biological Research Regulatory Approval Portal (BioRRAP)** has been developed by the Department of Biotechnology-NIC in consultation with concerned regulatory authorities. This overarching portal serves as a platform for all stakeholders to facilitate biological research projects that require regulatory approval(s).
3. All organizations as well as researchers undertaking biological research in the country are required to register at BioRRAP. This portal enables researchers to submit biological research proposal which is subsequently communicated to concerned regulatory authorities for all the permit requirements. An illustration of application flow on BioRRAP and a regulatory agency portal is shown in Annexure.
4. A unique BioRRAP ID is generated for each research proposal registered at BioRRAP and links of regulatory authority portals are provided to the applicant to submit the proposal for regulatory approvals.
5. The Department of Biotechnology hereby notifies the implementation of BioRRAP portal from 15.06.2022. The "**Biological Research Regulatory Approval Portal**" is hosted online at <https://biorrap.gov.in/>.
6. This OM may be placed on the website/portal of the concerned Departments/Ministries for wider publicity and implementation.
